

Innovative powder coating System

Advanced coating features such as C-Pulse, a coating option that is said to penetrate tough Faraday cage areas, reducing time and material consumption

Enhanced coating quality of flat and complex parts

- Reduced operator fatigue
- Effective coating in corners and recesses
- Improved recoating ability

CL-668-L3

Good for flat spaces

Any place will be coated efficiently

Any deep inside part will be coated well with extension nozzle

Nozzles and long caps

ONLY IN COLO!

Pre-programmed Mode Control Unit

The Colo-660 features an innovative design with four pre-programmed control options that allow you to easily coat a variety of parts.

COATING MODE

Operator controls the voltage and current for maximum efficiency

RECOAT MODE

Adjusts both the voltage and current for efficient recoating

CORNER MODE

Adjusts voltage while maintaining current output for coating complicated corners and recesses

PULSE MODE

Rapidly recharges the powder for higher transfer efficiencies
